Handicapped Race

Leinster Open Sea run the Leinster Open Sea Races including the Jones Engineering 99th Dublin City Liffey Swim under a handicap system so as to give each swimmer an opportunity of winning in their respective competition.

In order to qualify to compete in the Dublin City Liffey Swim swimmers must complete and submit times of **four** qualifying swims so that the Handicapper can calculate a handicap. This determines when you will start the race. Slower swimmers will start swimming on “GO” whereas faster swimmers will have higher handicaps, increasing in intervals of 15 seconds after “GO”. Some swimmers will have to wait several minutes after “GO” before they can start to swim. The winner is the first swimmer to pass the finish line. The handicap system gives each swimmer an equal opportunity to win their respective competition.

In order to help the Handicapper to assess you, we ask that you provide an honest and fair assessment of your times for swimming 1,600 metres in race conditions.

1,600 Metres (Mandatory)
